Mina and Jackson – on their wedding day

On Top - Climbing North Sister

With Carol at the zoo

A Little Bit About Me

After high school I went to Alaska, and worked as a juvenile delinquent counselor at a state institution in Willow, just up the road from Sarah Palin's old stomping grounds. I was unable to see Russia from anywhere in the area, however.

I came back, and went to college some (George Fox, PSU, and later PCC, Marylhurst, University of Phoenix, but never got my bachelor's degree. After PSU I was still undecided on a major, and decided to take some time off. I made cabinets for a couple of years, and then went to work for GTE in 1977.

I married that same year, had a son in 1982, and had twin daughters in 1986. My ex-wife was much more involved with the production of the kids, and I was truly just an observer in the end.

Me n the girls - Twins Megan and Maggie

My son Jackson went to SOU, is married, and lives in Tualatin. Daughter Megan has a three-year-old son, lives in Newberg, and works for Fred Meyer. Daughter Maggie went to nursing school, and lives in Wyoming with her husband.

I was really into rock climbing, and mountain climbing, and still backpack with my brother. Watersports are great, and I love to golf, although my version does not resemble what is seen on TV. I think spectators actually pay to see that though.

I reunited with Carol Heikkila in 2005, and we married in Cannon Beach in 2007. We traveled a lot, and had many wonderful times before Carol passed away (heart attack) on 6/1 of this year. She was the greatest friend.

I retired from telecommunications (GTE / Verizon / Frontier) on 6/30, and am taking some time off while I decide where the rest of my life should be. I'm headed from Aloha to Placerville, California (brother Gene is there) to spend the winter, and I'll head to Sunriver after that.

I look forward to seeing you at the reunion.

Megan, Jackson, grandson Ryder, and Carol and I
